

## **How an EPS13 Abstract Might Look like**

*B.C. Author<sup>1</sup> (bauthor@bluewin.ch), M. Second<sup>2</sup>, M. Third<sup>2</sup>, D.E. Further<sup>1</sup> and I.G. Higher<sup>2</sup>*

*<sup>1</sup> Swiss Patent Office, CH-3000 Bern*

*<sup>2</sup> Alpine Research Station Jungfrauoch, CH-3801 Jungfrauoch*

Use paper in the A4 format (210 mm x 297 mm) and set margins to the left and right at 20 mm, on top to 37 mm and on the bottom to 19 mm. Then set the font to 'Times' and start with the title in 14-point size boldface. Underneath, go on with 10-point italic 'Times' fonts and list the authors in the desired sequence. Please insert (in parentheses) the e-mail address of the corresponding author, immediately following his/her name. On the next line, list the affiliations. Superscript numbers are used to relate authors and affiliations to one another (see example above). Now, horizontally centre title, author names and affiliations, and continue after one free line with left-adjusted abstract text in 10-point roman (*i.e.*, normal) 'Times' font. Should you need references, call them out by superscript letters, but please avoid giving more than two references. Once you have converted your abstract into a \*.pdf file, save it for later insertion into the electronic submission form. To give you an idea of the desired length of the abstract: the present text, with its 193 words, is close to the maximum length of 200 words.
